

Biology Nervous System Study Guide

Eventually, you will
extremely discover a
supplementary experience and
exploit by spending more
cash. nevertheless when?
realize you recognize that
you require to acquire those
all needs taking into
account having significantly
cash? Why don't you try to
get something basic in the
beginning? That's something
that will lead you to
understand even more on the
subject of the globe,
experience, some places,
subsequent to history,
amusement, and a lot more?

Biology 12 - The Nervous
System Study Guide 1.
Explain how the nervous
system is divided into sub-
systems. What is the main
function of each sub-system?
2. Draw and label a simple
motor neuron and state the
function of each labelled
part. See Notes 3. What are
the three types of neurons?

Download File PDF Biology Nervous System Study

As mentioned above, the central nervous system (CNS) is made up of the brain, a part of which is shown in Figure 26.19 and spinal cord and is covered with three layers of protective coverings called meninges (from the Greek word for membrane). The outermost layer is the dura mater (Latin for “hard mother”). As the Latin suggests, the primary function for this thick layer is to protect the brain and spinal cord.
