Cognitive development is all about learning. When a school-age child solves a math problem, that's cognitive development; when a school-age child questions something she has read, that's cognitive development; and when a school-age child makes a snack or learns to knit, that's cognitive development. Cognitive development happens all the time and is influenced by both our genes and our experiences. According to Dodge, Colker, and Heroman (2002), "Cognitive development refers to the
