Sharks are found in all seas. They generally do not live in fresh water, with a few exceptions such as the bull shark and

Download File

PDF Hark A

the river shark  
which can swim  
both in seawater  
and freshwater.

Sharks are  
common down to  
depths of 2,000  
metres (7,000 ft),  
and some live even  
deeper, but they  
are almost entirely  
absent below 3,000  
metres (10,000 ft).
