The Renaissance Diet 2.0 is not a fad. Instead, this hands-on guide presents a sports nutrition approach to eating for fat loss, muscle gain, and enhanced sport performance by incorporating current, comprehensive evidence—setting it apart from all the misinformation on nutrition available today. Within this book, you will read which parts of a diet determine results. Delving into calorie intake, food quality, meal spacing and timing, and supplement use, you will understand how to rank-order each part based on its relative contribution to diet, ensuring that you remain focused and avoid getting needlessly caught up in minute details. Next you will further explore why and how calories matter; how much protein is enough; whether snacking is a good idea or if intermittent fasting is better. Each of these questions and more will be answered, giving you the foundational knowledge to understand diet structure. Finally, you will learn how to design your individual diet by using the given step-by-step guidelines on how to modify your diet as your body adapts. Additional information about hunger management, diet psychology, and long-term diet planning is provided—all to achieve the best results. Also included are special diet considerations for a vegan diet, training multiple times a day, competition day, endurance sports, and women at different life stages, as well as information on the most pervasive diet myths and why they are wrong. By using the knowledge and tools in this book, you are guaranteed to achieve any fat loss, muscle gain, or performance goal. Renaissance Periodization has helped hundreds of thousands of clients across the world reach their fitness goals. Whether you want to lose fat, gain muscle, or improve sports performance, the experts at RP can help get you there. Foreword by Rich Froning.

Learn how to make your opponent tap out in virtually any situation! This guide is packed with hundreds of armlocks, chokes and leglocks that you can use to make any opponent tap out. This book offers hardcore, serious, practical instruction on submitting an opponent in a wide variety of grappling and fighting situations. Whether you are a submission grappler, judo or jujitsu athlete or MMA fighter, you will learn armlocks, chokes and leglocks from start to finish in both "no gi" and "gi" situations. Plus you will get variations, alternate finishes and escapes so no matter what your opponent throws at you, you will be ready. Steve Scott shares the same training tips, technical expertise and tactical advice that he has used to train over 200 national and international champions in grappling sports. This book is like having your own world-class coach with you every time you step on the mat. The book is divided into 3 massive sections: SECTION ONE: ARMLOCKS -- This section features the four primary armlocks including the cross-body armlock, the bent armlock, the armpit lock and the straight armlock. In some cases, shoulder joint locks are also shown when relevant to an armlock. There are many breakdowns, set ups, variations, combination techniques and applications of armlocks in this section. SECTION TWO: CHOKES & STRANGLES -- This section emphasises strangles and chokes aimed directed against the carotid arteries on the sides of the neck as well as against the trachea (windpipe) and front of the check and throat. In some cases, neck cranks and shoulder locks are also shown when relevant to a choking technique. A wide variety of ways to break down an opponent, roll an opponent into a choke, flatten out an opponent for a choke or apply chokes from a variety of positions. SECTION THREE: LEGLOCKS -- This section includes all submission techniques directed toward the lower body, including the ankles, knees, legs and hips. A large number of toeholds and ankle locks are featured. Both straight and bent knee leglocks are shown in this section as well.

Step-by-step photographs and illustrations demonstrate more than one hundred maneuvers from the traditional martial art of Brazilian jiu-jitsu, with an overview of the history of jiu-jitsu and its uses.

Industry 4.0 refers to fourth generation of industrial activity characterized by smart systems and internet-based solutions. This book describes the fourth revolution based on instrumented, interconnected and intelligent assets. The different book chapters provide a perspective on technologies and methodologies developed and deployed leading to this concept. With an aim to increase performance, productivity and flexibility, major application area

of maintenance through smart system has been discussed in detail. Applicability of 4.0 in transportation, energy and infrastructure is explored, with effects on technology, organisation and operations from a systems perspective.

Submit Everyone features seven information-packed chapters on how to become a better submission artist. Pulling from Dave Camarillo's method of guerrilla jiu-jitsu, Submit Everyone uses guerrilla tactics of warfare to create a strategy for success. Incorporating elements like Psychological Operations and Ambushing, this book offers a refreshing approach to Brazilian Jiu-Jitsu that teaches you how to finish the fight! Get prepared to be the best grappler at your academy and start submitting everyone!

Andre Galvao has earned his reputation as one of the best and most exciting Brazilian Jiu-Jitsu champions of all time. Now, he brings his training methods to the public with Drill to Win: 12 Months to Better Brazillian Jiu-Jitsu. If you want to move like Galvao, submit like Galvao and win like Galvao, this is the book for you. In this one-of-a-kind manual, Andre outlines both a 1-year schedule to overall improvement as well as smaller game plans for short term competition preparation. This is not your average reference book, but instead a step-by-step guide to building a champion grappler. The key to this book is in its building block methodology that follows Andre's basics of grappling—the ability to move and adapt to new movements in Brazilian Jiu-Jitsu. So don't wait, pick up this book and start the first day of your BJJ explosion!

Presented by Jean Jacques Machado, one of only a few Brazilian jiu-jitsu masters to be awarded the red belt by the legendary Rickson Gracie, this 3-DVD set features grappling techniques with a gi (uniform) and without, so martial artists of all levels can successfully transition between styles. Taking readers through the major grappling positions found in mixed martial arts, Brazilian jiu-jitsu, and submission fighting, Machado builds a foundation from which grapplers of any background can use. The lessons include gi and no-gi takedowns, passes, counters, and submissions, as well as how to exploit opponent vulnerability, how to secure dominant positions, and how to execute match-ending attacks from almost any angle. The DVD set serves as a companion to the book *The Grappler's Handbook: Gi and No-Gi Techniques* and provides multiangle live-action depictions of the techniques and an optional on-screen caption track that details where in the book viewers can find more in-depth coverage of various topics as they appear on screen.
