One of the new features of Application
Express 5.2 is the ability to execute SQL not
only in the "local" Oracle database (where
APEX runs in), but also on a remote Oracle
instance. This is based on the new REST
Enabled SQL feature introduced with ORDS
17.4.

APEX, previously named Oracle HTML DB) is a web-based software development environment that runs on an Oracle database. It is fully supported and comes standard (at no additional cost) with all Oracle Database editions and, starting with Oracle 11g, is installed by default as part of the core database install.

~~Oracle Application Express - Wikipedia~~

I am currently using Oracle Application Express to design a demo application cause I am new to it. The problem that I have is the following create a work space that works 100% create an application with pages and data in the application when I work on a page that I have made in the application I can create it and insert info but when I want to save it then says session has expired but I have ...
