In una fresca notte d'inverno, Paperin Paperetti riceve una visita davvero bizzarra: l'Ombra Nera, dagli amici chiamata l'Uomo Nero! Da qui prende vita un'esilarante avventura del nostro amico, dottor Paperetti, che ci insegna ad affrontare tutte le nostre paure più assurde in modo divertente: ad ogni problema ci può essere una soluzione o una nuova e creativa interpretazione di ogni situazione. Cari mamme e papà, in questa favola parliamo di un'importante emozione che ci accompagna tutta la vita: la paura. Questa è senza dubbio un'emozione sana. Ciò che invece non va bene è la paura irrazionale originata da stimoli non pericolosi. Buona lettura e buona nanna!

With the word Chakra, which derives from Sanskrit and means "wheel", we want to indicate the seven basic centers of energy in the human body. The chakras are centers of subtle psychic energy located along

the spine. Each of these centers is connected, at the level of subtle energies, to the main ganglia of the nerves that branch out from the vertebral column. In addition, the chakras are related to the levels of consciousness, to the archetypal elements, to the phases inherent in the development of life, to colors, which are closely related to the Chakras, because they are located outside of our body, but within the aura , that is to say the electromagnetic field that surrounds each person, to the sounds, to the functions of the body and to much, much more. In this third volume (of the seven dedicated to each chakra) we will go on to study Manipura in detail, the Third Chakra, also called the Solar Plexus Chakra, located at the height of the diaphragm, just below the breastbone. This center is the fulcrum of individual and collective well-being. The Third Chakra is responsible for the well-being and evolution of mankind. Money is considered important to satisfy primary desires and needs, provided it does not become a priority. From a physical point of view, the Third Chakra deals with the organs corresponding to the solar plexus area such as the intestine, the stomach, the liver and the biliary vesicle. Its geometric symbol is the equilateral triangle, corresponding to the Fire element. Its Color is Yellow, it is bipolar and is oriented horizontally. The Third Chakra represents the strength of will, efficiency and charisma.

One of Italy's best-known writers takes a Grand Tour through her cities, history, and literature in search of the true character of this contradictory nation. There is Michelangelo, but also the mafia. Pavarotti, but also Berlusconi. The debonair Milanese, but also the infamous captain of the Costa Concordia cruise ship. This is Italy, admired and reviled, a country that has guarded her secrets and confounded outsiders. Now, when this "Italian paradox" is more evident than ever, cultural authority Corrado Augias poses the puzzling questions: how did it get this way? How can this peninsula be simultaneously the home of geniuses and criminals, the cradle of beauty and the butt of jokes? An instant #1 bestseller in Italy, Augias's latest sets out to rediscover the story-different from the history-of this country. Beginning with how Italy is seen from the outside and from the inside, he weaves a geo-historical narrative, passing through principal cities and rereading the classics and the biographies of the people that have, for better or worse, made Italians who they are. From the gloomy atmosphere of Cagliostro's Palermo to the elegant court of Maria Luigia in Parma, from the

ghetto of Venice to the heroic Neapolitan uprising against the Nazis, Augias sheds light on the Italian character, explaining it to outsiders and to Italians themselves. The result is a "novel of a nation," whose protagonists are both the figures we know from history and literature and characters long hidden between the cracks of historical narrative and memory.

A brilliantly dark literary debut of death, destruction and interior decoration. "But for the floors, and the sofa, and the porn, and the dead and missing, the flat was restored to order." An old friend asks you to look after his two cats and his apartment. What could go wrong? *Care of Wooden Floors* is about how a tiny oversight can trip off a disastrous and farcical (fatal, even) chain of consequences. It's about a friendship between two men who don't know each other very well. It's about alienation and being alone in a foreign city. It's about the quest for perfection and the struggle against entropy. And it is, a little, about how to take care of wooden floors. Oskar is a Mittel-European minimalist composer best known for a piece called "Variations on Tram Timetables." He is married to a Californian art dealer named Laura and he lives with two cats, named after Russian composers, in an Eastern European city. But this book isn't really about Oskar. Oskar is in Los Angeles, having his

marriage to Laura dismantled by lawyers. He has entrusted an old university friend with the task of looking after his cats, and taking care of his perfect, beautiful apartment. Despite the fact that Oskar has left dozens of surreally detailed notes covering every aspect of looking after the flat, things do not go well. Dark, funny and compelling, this novel takes your breath away with its extraordinarily distinctive writing. The voice is unexpected, constantly, but consistently conveys a universal human experience that pulls the reader right into the world of the narrator.
