"Fast, eerie and crackling with disarmingly matter-of-fact phantasmagoria, Margaret Killjoy's *The Lamb Will Slaughter the Lion* maps a wilderness peopled by marginalised outsiders where everything from sexual identity to material reality is in the same state of fluid drift. Intelligent and fiercely imagined, this book is a passport to a world hauntingly similar to our own, in which disturbing unreality appears to have become an accepted universal condition that is scarcely worth mentioning.

I serve the supernatural community of San Francisco. We've been having some problems lately. Okay, I'm the one with the problems. The broken body of a female werewolf washed up on my doorstep. A protection I've been relying on is gone. While my wolf traits are strengthening steadily, the loss also left my mind vulnerable to attack. Someone is ensnaring me in horrifying visions intended to kill. Clive, the sexy vampire Master of the City, has figured out how to pull me out, designating himself my personal bodyguard. He's grumpy about it, but that kiss is telling a different story. A change is taking place. It has to. The bookish bartender must become the fledgling badass. I'm a survivor. I'll fight fang and claw to protect myself and the ones I love. And let's face it, they have it coming. *** The reviews are in: "Kelly (Welcome Home, Katie Gallagher) introduces fierce, lovable heroine Sam Quinn with this master class in storytelling and survival. A loner by nature and still contending with her trauma, she's content to lie low without a wolf pack of her own. Among them is Clive, the leader of the city's vampire community, whose good looks attract Sam "like a zombie to brains." Kelly pulls off an impressive feat, weaving the sensitively handled story of Sam's emotional recovery through a rollicking adventure. The unique setting and endearingly quirky side characters only add to the charm. Readers will delight in both the humor and the heartache of this powerful urban fantasy, and they'll be eager to see where Sam goes next." in was that Charles, at age thirty-three, was not only a confirmed bachelor, surrounded from infancy with people to anticipate and provide his every need, he was also in a long-term, committed relationship. However, it was his duty to marry and provide an heir to the throne of England. Meanwhile, Diana, almost a generation younger, envisioned (as Edward VIII had) what a modern monarchy could be; how it could be relevant in today's complex society—a monarchy she was determined to have for her son. That these two forces—the status quo and the Modern England—should clash was inevitable, but no one was prepared for the cataclysmic climax in the story of the Queen England never had—Diana, Princess of Wales, the Lamb to the Slaughter.

Dimos Horacki is a Borolian journalist and a cynical patriot, his muckraking days behind him. But when his newspaper ships him to the front, he's embedded in the Imperial Army and the reality of colonial expansion is laid bare before him. His adventures take him from villages and homesteads to the great refugee city of Hronople, built of glass, steel, and stone, all while a war rages around him.
